NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover onions grown from seed.

HARVESTING OF PLANTED ACREAGE

1.—(1) All acreage planted to onions in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The harvesting referred to in subparagraph 1 shall be completed not later than the 31st day of October or such other date as may be determined from time to time by the Commission.

EVALUATION OF LOSS

2. For the purposes of determining the loss in production of onions in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 3 and 4.

STAGE 1

3.—(1) Stage 1 comprises the period from the date on which the planting of acreage to onions is completed to and including the 31st day of May in the crop year.

(2) When loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the replanting of the damaged acreage, provided that the replanting is completed not later than the 31st day of May; or
- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage.

(3) Where damaged acreage in excess of one acre is replanted to onions in accordance with clause a of subparagraph 2, the Commission shall pay an indemnity of \$170 for each acre replanted and the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause b of subparagraph 2, the Commission shall pay an indemnity of \$170 per acre and the contract of insurance shall terminate with respect to such acreage.

(5) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and, in such case, no further indemnity shall be payable in respect of the damaged acreage.

STAGE 2

4.—(1) Stage 2 commences on the 1st day of June in the crop year and, with respect to any part of the planted acreage, ends on completion of harvesting.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of

damaged acres and the potential production thereof and the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the amount by which the guaranteed production for the damaged acreage exceeds the potential production determined therefor by the established price per bag.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the acreage harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bag.

FINAL ADJUSTMENT OF LOSS
FOR TOTAL PLANTED ACREAGE

5.—(1) The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Stage 1 and Stage 2 loss calculations applicable to such acreage, but subject to subparagraph 2, where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per bag.

- (2) Notwithstanding subparagraph 1, no indemnities paid in Stage 1 shall be subject to reduction under this paragraph.
- (3) In no case shall indemnity be paid for acreage in excess of the total insured acreage.

DAMAGE AFTER HARVEST

6. No indemnity shall be paid in respect of any loss or damage suffered by the insured crop after combining and in no case shall any indemnity be paid with respect to onions in storage.

INCORRECT ACREAGE IN
FINAL ACREAGE REPORT

7.—(1) Where the actual planted acreage of onions in a crop year is less than the planted acreage declared on the final acreage report, the total guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual planted acreage of onions in a crop year exceeds the planted acreage declared in the final acreage report, the guaranteed production shall be reduced proportionately.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

ELECTORAL BOUNDARIES

FIRST PROPOSALS

of the

Ontario Electoral Boundaries Commission

MEMBERSHIP OF COMMISSION

Chairman:

The Honourable Mr. Justice Campbell Grant,
Member of the High Court of Justice for the
Province of Ontario.

Deputy Chairman:

Roderick Lewis, Clerk of the Legislative Assembly
and Chief Election Officer for the Province of
Ontario and one of Her Majesty's Counsel Learned
in the Law.

Member:

Professor T. Robert Sansom, Associate Professor
of Political Science in the Faculty of Social Science
of the University of Western Ontario.

PURSUANT to the Terms of Reference specified in No. 110 of the Votes and Proceedings of the Legislative Assembly of Ontario dated Wednesday, December 5th, 1973, The Ontario Electoral Boundaries Commission has prepared a map and a description of the boundaries of proposed electoral districts and now invites public attention by this Notice in THE ONTARIO GAZETTE.

According to the instructions included in the Terms of Reference, the Commission began its work with several broad principles in mind.

FIRST: It was to leave untouched as many of the electoral districts as could possibly be so left, even if this meant that in some cases an electoral district might be perhaps larger or smaller than others of a similar nature.

SECOND: The Commission was desirous of giving effect to the various factors specified in its Terms of Reference such as geographical, historical and communications considerations, as far as its knowledge enabled it to do so. The factor of extraordinarily rapid growth was also considered where this was apparent to the Commission.

THIRD: Vacation areas, where the summer population is many times that of the census population, were given special consideration.

FOURTH: So far as northern Ontario is concerned, by the Terms of Reference the 25% tolerance did not apply.

Where recent changes such as are announced in Bill 14 amending The Territorial Division Act, affect Electoral Districts as described in these initial proposals, such changes will be taken into consideration by the Commission during its consideration of submissions prior to its report.

NOTICE IS HEREBY GIVEN that The Electoral Boundaries Commission of Ontario will receive written submissions with respect to the proposed electoral boundaries up to July 12, 1974. Such submissions are to be addressed to the Secretary, Brian S. McCool, at 70 Lombard Street, Toronto, Ontario M5C 1M3.

Hypertension — Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant.

Oral Contraceptives — Grouped According to Estrogenic Content

The products listed together in any given category are considered to be comparably effective when used as ovulatory suppressants. However, it is recognized that there may be a variation in adverse effects among these products as well as a variation in their application when they are used for purposes other than contraception. For this reason, selection of the appropriate agent must be based on professional judgement to meet the individual requirements of the patient.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.
